## **VI. Introduction to Scenic Area**

Since Neolithic, 5,000–6,000 years ago, human has been living and breeding at Qinhuai River. The ancient village sites discovered along its both side up to 50-60, including the famous Hushu Culture Site and Yinzishan Site. During the Six Dynasties period, the riverside of Qinhuai River around Confucius Temple has been

already a bustling commercial hub. Known as Nanjing's "mother river," the Qinhuai River is the cradle giving birth to ancient culture of Jinling. Extending five kilometers in total, the inner Qinhuai River has been historically known as "Five-kilometer Qinhuai" as the quintessence of Confucius Temple-Qinhuai Scenic Area. Its core scenic belt, spanning 1.2 square kilometers, which integrating natural sceneries, landscape, gardens, temples, shools, streets, civil residences as well as local customs and habits.
